118 breaches. What actually broke.

Each cell counts the 2026 incidents where that attack vector exploited that pressure state, as recorded in the incident's sources.

118
breaches logged in 2026, with sources

50
pressure entries citing trust, twice any other state

12
break-ins began with an impersonation call, the top known vector

2×
AI involvement: Sep–Oct matched Jan–Aug

ATTACK VECTOR	INCIDENTS	TRUST	AUTHORITY	URGENCY	ROUTINE	SPEED	FEAR	REWARD	SECRECY	AI INVOLVED
Impersonation call: IT, help desk, bank Odido · Charter · RingCentral · City of Aurora	**12**	12	12	9	2	·	·	·	·	**1**
